Insight of how to using CANtool

What CANtool is

[Back to top](#)

Welcome to our internet tool for capitalization. CANtool stands for tool of "Capitalisation ANalytique" (in French, or Analytical Capitalization). It is original because it is the first of its kind, to our knowledge. It derives from the frequent concern for capitalization but which has remained little materialized.

CANtool is mainly a database which can be consulted and fed. The capitalized data could, for instance, pertain to development projects, notably in the area of foodcrop or diversification productions. This tool could be used also to capitalize other types of operations, like research actions, studies or expertise assessments in various areas.

There is no need to be registered to implement research into the database, registration is only required to feed the database and make it bigger and more useful.

What CANtool is not

[Back to top](#)

CANtool allows capitalization according to an analytical approach. There is no unique or universal analytical approach. The option for this approach depends on the network of persons who commit themselves with the process of capitalization. For instance, the network of scientists gathered around the topic of foodcrop and diversification productions, has favored an analytical approach based on a perspective of social sciences by identifying in one hand the constraints which hamper the productions addressed, and in the other hand the actions implemented to overcome constraints.

Consequently, CANtool is not a tool for capitalization in absolute terms but rather in relative terms with reference to an analytical approach. Information CANtool provide is not exhaustive, it is restrained to what seems to be relevant with regard to the analytical approach selected. Nevertheless, when possible, indications on people or documents are provided to enable to be further informed.

[Back to top](#)

Originality

[Back to top](#)

CANtool is not only original because it is the first available capitalization tool, but because it could enable capitalization for different types of operations and for diverse analytical approaches.

It has been carried out firstly to capitalize operations commonly called "development projects", and especially in the domain of agriculture with the specific case of foodcrop and diversification productions. It works for other cases in agriculture. It could work also for other

domains, like health or education.

It could also work for other types of operations, like research actions, or studies/expertise implemented in a specific area. It is worth mentioning that many studies/expertise have been conducted about cotton sectors in Africa, proceed towards their capitalization would be relevant.

A major point of originality lies on the characterization of the conducted actions with reference to a tree of criteria corresponding to the analytical approach retained.

However, adaptation of CANtool to various domains of capitalization remains necessary. This adaptation would not be very challenging, either to enlarge the scope of areas of application or to amend the existing trees of analytical approaches. All suggestions are welcome by addressing yourself to the tool administrator (michel.fok@cirad.fr)

A Quick insight

Home page and start searching

Type words you think relevant

Click on the document for more information

The screenshot shows the CANTool website interface. At the top left is the logo 'cantool' with a colorful circular icon. To the right are navigation links: 'Home', 'Search', 'Thesaurus', 'Members', and 'Log in'. Below the logo is a search bar with the text 'Search an operation' and a search icon. A blue arrow points to the search bar with the text 'Type words you think relevant'. To the right of the search bar is a link that says 'No keywords in mind?'. Below the search bar, the page is divided into two main columns. The left column is titled 'Search operations through the assistance of thesaurus' and contains a paragraph of text about the database, followed by a link 'About'. The right column is titled 'Latest operations' and contains a list of document titles with dates, such as '2011-12-15 - Étude relative à la définition d'une politique rizicole en cote d'ivoire et d'un plan d'actions opérationnel'. A blue arrow points to the first document title with the text 'Click on the document for more information'. At the bottom of the page, there is a section titled 'News from CIRAD' with three news items dated 2012-02-08 and 2012-02-07.

Search an operation [No keywords in mind ?](#)

Search operations through the assistance of thesaurus

CANTool is a database destined to capitalize development operations, such as those funded by regional or international institutions.
To our knowledge, it is the first tool in this area.
The database can be fed by people having conducted operations and their actions can be characterized by thesauruses, i.e. trees of keywords delineated from global themes.
Thesauruses perform also as guiding assistant to retrieve operations in addition to conventional retrieval by keywords.
Subscription is only required to join in feeding the database.
[About](#)

174 operations informed since the end of 2010
Up to now, a network of people working in countries have contributed by using thesauruses.
Join-us and enlarge the scope of use of this tool by creating new thesauruses specific to your themes.
[Subscribe to the AFOMDnet network](#)

Search freely or through a few filters

Type words you think relevant

Click here to launch searching

Numbers of results obtained from searching

The screenshot shows the 'cantool' search interface. At the top, there is a navigation bar with 'Home', 'Search', 'Thesaurus', 'Members', and 'Log in'. Below this is a search bar with the text 'Search an operation' and a search button. To the right of the search bar, it says 'No keywords in mind?'. Below the search bar, there are several filter sections: 'Remove filters', 'All saving dates' (with options: Past year, Past 3 months, Past month, Past week), 'All operation type' (with options: Development project, Expertise study, Research operation), and 'Country' (with a list of countries: Afghanistan, Africa (Continent), Albania, Algeria, American Samoa, Andorra, Angola, Anguilla). The main content area displays a list of search results, each with a title, a description, and the country mainly addressed. The results are: 'Projet de developpement rural du borgou' (Development project, 1981-1988, Benin), 'Promotion des filières agricoles urbaines porteuses' (Development project, 2009-2011, Benin), 'Projet de developpement des filières lait et viande' (Development project, 2009-?, Benin), 'Programme de developpement des plantes à racine et tubercules' (Development project, 2001-2009, Benin), 'Projet riz pluvial (p.r.p)' (Development project, 2008-2010, Burkina Faso), and 'Projet d'appui au developpement rural de la région du centre'.

Filters available are: periods of recordings, types of operations, countries concerned, and funding organisations.

Filters might have to be removed along the various sequences of searching

Searching assisted by thesaurus

1. Select one thesaurus

2. The "tree" of the thesaurus is delineated

3. Select what is relevant for you; multiple selection is possible; search will be operated for operation corresponding to any of the selections made (and not for all)

The screenshot shows the 'cantool' website interface. At the top, there is a navigation bar with 'Home', 'Search', 'Thesaurus', 'Members', and 'Log in'. Below this is a header section titled 'Search through using thesaurus' with a search button labeled 'Search according to the selected terms'. The main content area is divided into two columns. The left column lists several thesauri: 'AFOMDnet' (described as categorizing actions to help alleviate constraints), 'Colire Cotton & society' (administrated by Fok Michel), 'ESPEs-Africa' (Economy, society, policy and space), 'TropicAgrif' (Tropical agricultural and fisheries), and a link to 'Suggest a thesaurus'. The right column displays the 'Colire' thesaurus tree, which is delineated. It is organized into two main sections: 'Competitiveness' and 'Cotton policy'. Under 'Competitiveness', there are four categories: 'Cost competitiveness', 'Crop competitiveness', 'Market adaptation', and 'Quality competitiveness'. Under 'Cotton policy', there are five categories: 'Interaction with international trade', 'Policy cost', 'Policy effectiveness and efficiency', 'Policy measures', and 'Role of State in cotton policies'. Each category has a corresponding 'Select criteria' input field. Blue arrows from the text annotations point to the 'AFOMDnet' description, the 'Colire' thesaurus name, the 'Quality competitiveness' input field, and the right-hand side of the interface.

Who are feeding the database?

What you see when clicking on "members"

Type the name and first name to check if the person belongs to the network

Get the list of members by country or date of registration

Click on any name to have access to his profile, including the recordings he has made so far

The screenshot shows the 'cantool' website interface. At the top, there is a navigation bar with links for Home, Search, Thesaurus, Members, and Log in. Below this is a search bar labeled 'Search a member' with a magnifying glass icon. To the left of the main content area is a sidebar with a 'Remove filters' button and a section for 'All saving dates' with options: Past year, Past 3 months, Past month, and Past week. Below that is a 'Country' filter dropdown menu with a list of countries including Mali, Malta, Man Isld, Marocco, Marshall Islds, Martinique, Mayotte, Mexico, and Middle East (Continent). The main content area displays a list of members. At the top of this list, there are options for 'Order by' (Saving date, Relevance (if keywords), Name) and 'Results per page' (10, 50, 100). Below this, it shows '0 - 10 over 11 filtered (61 in total)'. The list contains several member profiles, each with a name and a brief description of their role and domain. The names listed are YARO Raoul, ALMOUSTAPHA Harouna, TRAORE Aboubacar, NIANGALY Allaye, OUOLOGUEM Abdoulaye, and ONGOIBA Boureima. Blue arrows from the surrounding text point to the search bar, the 'Mali' option in the country filter, and the name 'TRAORE Aboubacar' in the member list.

Order by	Results per page	0 - 10 over 11 filtered (61 in total)
Saving date - Relevance (if keywords) - Name	10 - 50 - 100	
1 2		
YARO Raoul	Monitoring and evaluation officer	Mali, Domain: Ngo
ALMOUSTAPHA Harouna	Point focal AMADER	Mali, Domain: Service technique du secteur public
TRAORE Aboubacar	Agro economiste, specialisé dans la Gestion. l'évolution d'impact et de la qualité des programmes et projets	Mali, Domain: Regional or international institution
NIANGALY Allaye	Stagiaire IER/ECOFIL	Mali, Domain: Research
OUOLOGUEM Abdoulaye	Membre du groupe AFOMDnet	Mali, Domain: Research
ONGOIBA Boureima		

Log in for those who are registered

Log in by keyboarding your email address and password, those you gave when getting registered

You get here because you clicked on this link

The screenshot shows the login interface for the 'cantool' website. At the top, the 'cantool' logo is on the left, and navigation links for 'Home', 'Search', 'Thesaurus', 'Members', and 'Log in' are on the right. Below the navigation bar, the 'AfordNET' logo is displayed. On the left side, there is a sidebar with a 'Log In' button and links for 'Register' and 'Forgotten password'. The main content area is titled 'Log In' and features a blue informational box for French users. Below this, there is a login form with two input fields: 'Email address' and 'Password'. To the right of the 'Email address' field is a link for 'No account?'. Below the 'Password' field is a link for 'Forgot password?'. There is also a checkbox labeled 'Stay connected'. At the bottom of the form is a 'Log In' button. The footer contains links for 'Help', 'About', 'Contact us', and 'Legal informations', along with language options 'English' and 'Français', and the text 'AfordNET | Slire | CIRAD' and '© Copyright CIRAD 2010-2012'.

Get registered to feed the database

You get here because you clicked on these links: "log in" then "register"

The screenshot shows the registration page for AfomdNET. The navigation bar includes 'Home', 'Search', 'Thesaurus', 'Members', and 'Log in'. The 'Log In' section on the left has a 'Register' button and a 'Forgotten password' link. The 'Register' form includes the following fields:

- Email address *
- Password *
- Confirm password *
- Name *
- First name *
- Gender (dropdown)
- Country (dropdown: Select a country)
- Area of activity (dropdown)
- Brief description (text area: Example: agronomistinCIRAD)
- Other informations (text area)
- Security code * (with CAPTCHA)

A 'Subscribe to AFOMDnet' button is located at the bottom of the form. The footer contains the following text:

Supervisor of Site and Cantool:
Michel Fol, UR-SCA, Girad-Persyst, Avenue Agropolis - 34398 Montpellier Cedex 5.
Information collected will be processed to check the access to data.
In compliance with the law on informatic et libertés of January 6, 1978, you have the right to accede to and to alter the informations about you.
If you want to apply this right and get communication of the informations about you, please contact us.

A few fields are compulsory and must be filled. Later on, you can adjust/amend the information provided at registration

Trouble at log in?

Classical trouble: what's my password!

Inform about the email address through which you registered yourself, a new password will be sent to you and that you can modify once logged in

You get here because you clicked on these links: "log in" then "password forgotten"

The screenshot shows a web browser window with the URL www.cantool.net/auth/lostpass. The page header includes the 'cantool' logo and navigation links: Home, Search, Thesaurus, Members, and Log in. A sidebar on the left contains links for Log In, Register, and a highlighted 'Forgotten password' link. The main content area is titled 'Forgotten password' and features a form with the label 'What's your email address?' and a 'Send' button. Blue arrows point from the text annotations to the 'Log in' link in the navigation menu and the 'Forgotten password' link in the sidebar.

Checking your registration

You get here because you clicked on this link and selected "Account parameters"

Once here, you can complement or modify the information you provided at registration

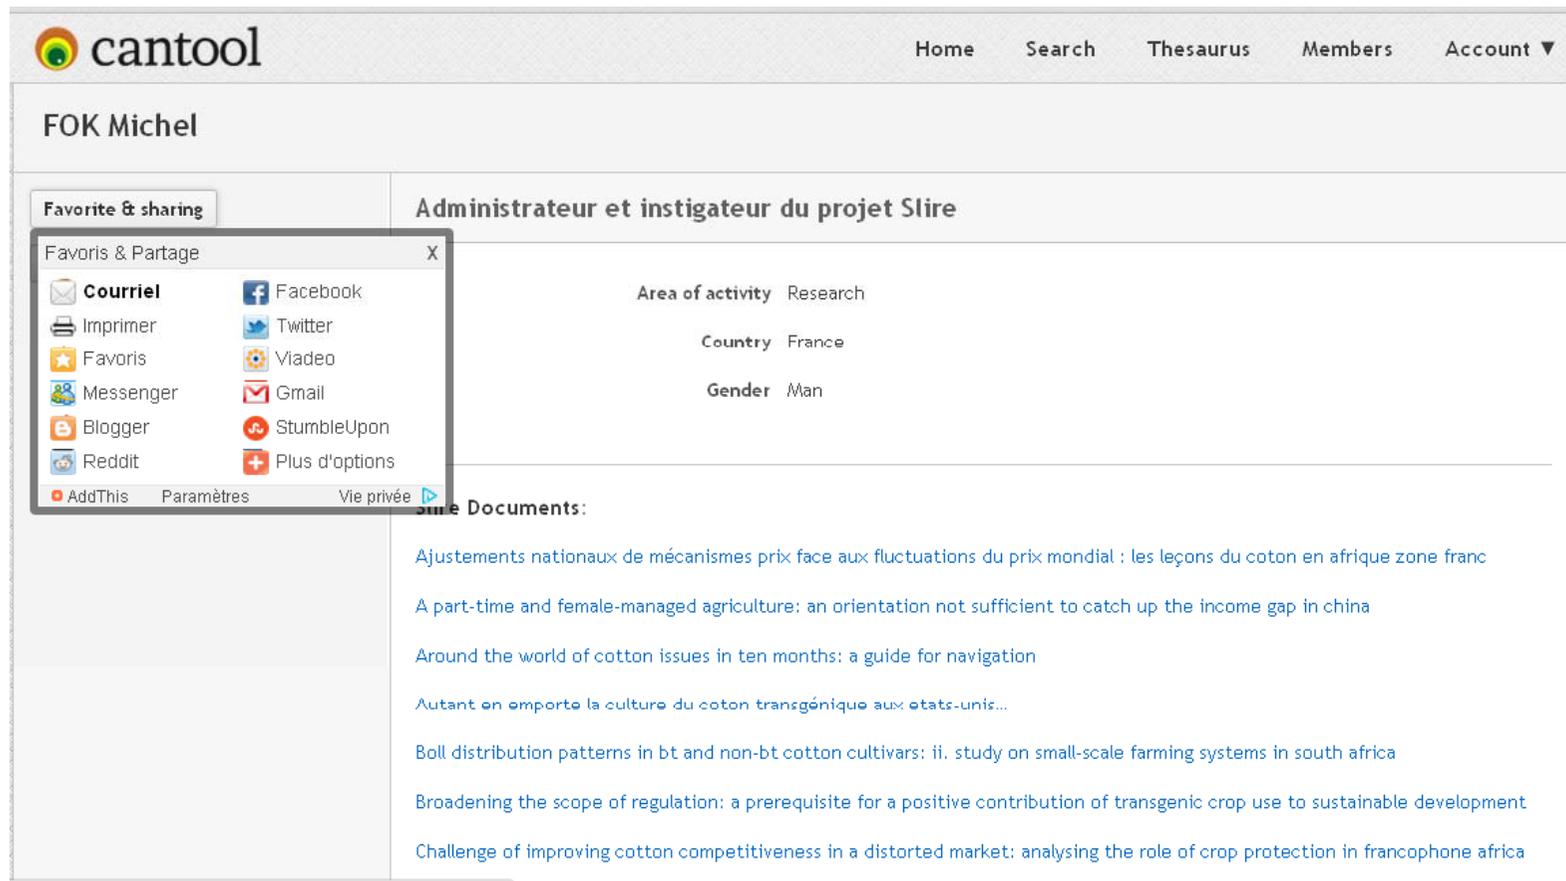

The screenshot shows the 'Account parameters' page on the cantool website. The navigation bar includes 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The 'Account' menu is open, showing 'Account parameters'. The main content area is titled 'Information about me' and contains a 'Profile preview' button. Below this, there are several form fields: 'Name' (Fok), 'First name' (Michel), 'Gender' (Man), 'Country' (France), 'Area of activity' (Research), 'Brief description' (Administrateur et instigateur du projet Slire), and 'Other informations'. A 'Save changes' button is at the bottom.

Click here to check you have contributed to the database: see next slide

Profile of any member

One can see what this member has contributed and one can contact him/her by email

The contributions made are listed for SLIRE and for CANTool

The screenshot shows the CANTool website interface. At the top, there is a navigation bar with the CANTool logo and links for Home, Search, Thesaurus, Members, and Account. The profile header for 'FOK Michel' is displayed. Below the header, there are two main sections: 'Favorite & sharing' and 'Administrateur et instigateur du projet Slire'. The 'Favorite & sharing' section is open, showing a list of sharing options including Courriel, Imprimer, Favoris, Messenger, Blogger, Reddit, AddThis, Paramètres, Vie privée, Facebook, Twitter, Viadeo, Gmail, StumbleUpon, and Plus d'options. The 'Administrateur et instigateur du projet Slire' section displays the member's role and personal information: Area of activity: Research, Country: France, Gender: Man. Below this, there is a section titled 'Some Documents:' which lists several document titles in blue text, such as 'Ajustements nationaux de mécanismes prix face aux fluctuations du prix mondial : les leçons du coton en afrique zone franc' and 'A part-time and female-managed agriculture: an orientation not sufficient to catch up the income gap in china'.

Modifying your email address

You get here because you clicked on these links: "Account" then "email address"

The screenshot shows the 'cantool' website interface. At the top, there is a navigation bar with links for Home, Search, Thesaurus, Members, and Account. The 'Account' link is highlighted with a blue arrow. Below the navigation bar, the page is titled 'Account parameters'. On the left side, there is a sidebar with links for 'Information about me', 'Email address', 'Password', and 'Delete my account'. The 'Email address' link is highlighted with a blue arrow. The main content area is titled 'Email address' and contains the following form:

Current email address michel.fok@cirad.fr

New email address

Enter your password

At the bottom of the page, there is a footer with links for Help, About, Contact us, Legal informations, English, and Français. The copyright notice at the bottom left reads: Copyright CIRAD 2010-2012.

Changing password

You get here because you clicked on these links: "Account" then "Password"

The screenshot shows the 'cantool' website interface. At the top, there is a navigation bar with links for 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The 'Account' link is highlighted with a blue arrow. Below the navigation bar, the page is divided into two main sections. On the left is a sidebar titled 'Account parameters' with links for 'Information about me', 'Email address', 'Password', and 'Delete my account'. The 'Password' link is highlighted with a blue arrow. On the right is the main content area titled 'Password', which contains three input fields: 'New password', 'Confirm new password', and 'Enter your current password'. Below these fields is a 'Change my password' button.

In case you want to leave

You get here because you clicked on these links: "Account" then "Delete my account"

It is not compulsory to give the reason why you want to leave the network, but you must enter your password

The screenshot shows the 'cantool' website interface. At the top, there is a navigation bar with links for 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The 'Account' link is highlighted with a blue arrow. Below the navigation bar, the page is titled 'Account parameters'. On the left side, there is a sidebar with links for 'Information about me', 'Email address', and 'Password'. The 'Delete my account' link is selected and highlighted with a blue arrow. The main content area is titled 'Delete my account' and contains the following text: 'Account delete is permanent' and 'By deleting your account, all documents and thesaurus you have integrated will pass under the control of the tool administrator'. Below this text, there is a form with two fields: 'Reason of deletion' (optional but appreciated) and 'Enter your password'. A 'Delete my account' button is located at the bottom of the form.

Adding a new record

After keyboarding the information, click here to save. To be done at any stage from this stage onward

You get here because you clicked on this link and selected "Add a new document"

You first have to inform about the "identity" of a new operation. A few fields must not remain blank, but like any other field, the contents can be adjusted later on

Fields where you are asked to give description or details are most valuable to highlight the operation to record. Possible to integrate translation

The screenshot shows the 'cantool' web interface. The top navigation bar includes 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The user is logged in as '(Inactive)'. The left sidebar contains a menu with 'Informations' (Identity, Funding, Characterization, Actions) and 'Results' (Implementation, Technical impacts, Institutional impacts, Lessons learnt, Files). The main content area is titled 'Identity' and contains the following fields:

- Official title ***: A text input field with a placeholder: "Please avoid caps and give the acronym, if any".
- Type of operation ***: A dropdown menu currently set to "Development project".
- Domain(s)**: A text input field with a placeholder: "Select a domain".
- Description ***: A text input field with a placeholder: "You can insert text in several languages (notably French and English) to enable retrieval through these languages. This suggestion applies to all field for free text." Below this field is a note: "* Required".
- Countries concerned**: A text input field with a placeholder: "Select a country".
- Precision about the location(s)**: A text input field with a placeholder: "Example: Department of Bouaké (Centre)".

At the bottom right of the form is a "Save changes" button. A "Preview" button and an "Activate" button are located at the bottom left of the sidebar.

Select funding organization in the list; if not found, add it (see above)

Adding a new funding organisation

You get here because you click on "add a new funding organization"

The screenshot shows the 'cantool' web application interface. At the top, there is a navigation bar with links for 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. Below the navigation bar, the user's status is '(Inactive)'. The main content area is titled 'New funding organization'. On the left side, there is a sidebar menu with the following items: 'Informations', 'Identity', 'Funding', 'Characterization', 'Actions', 'Results', 'Implementation', 'Technical impacts', 'Institutional impacts', 'Lessons learnt', and 'Files'. Below the sidebar menu, there are several buttons: 'Preview', 'Activate', 'Delete', and 'De-activate (Administrator)'. The main form area contains the following fields:

- Name in French ***: A text input field with a placeholder text 'In case of acronym, please explicite it'.
- Name in English ***: A text input field.
- Type ***: A dropdown menu with 'Collective' selected.
- Country**: A dropdown menu with 'Select a country' as the placeholder.
- Link**: A text input field.

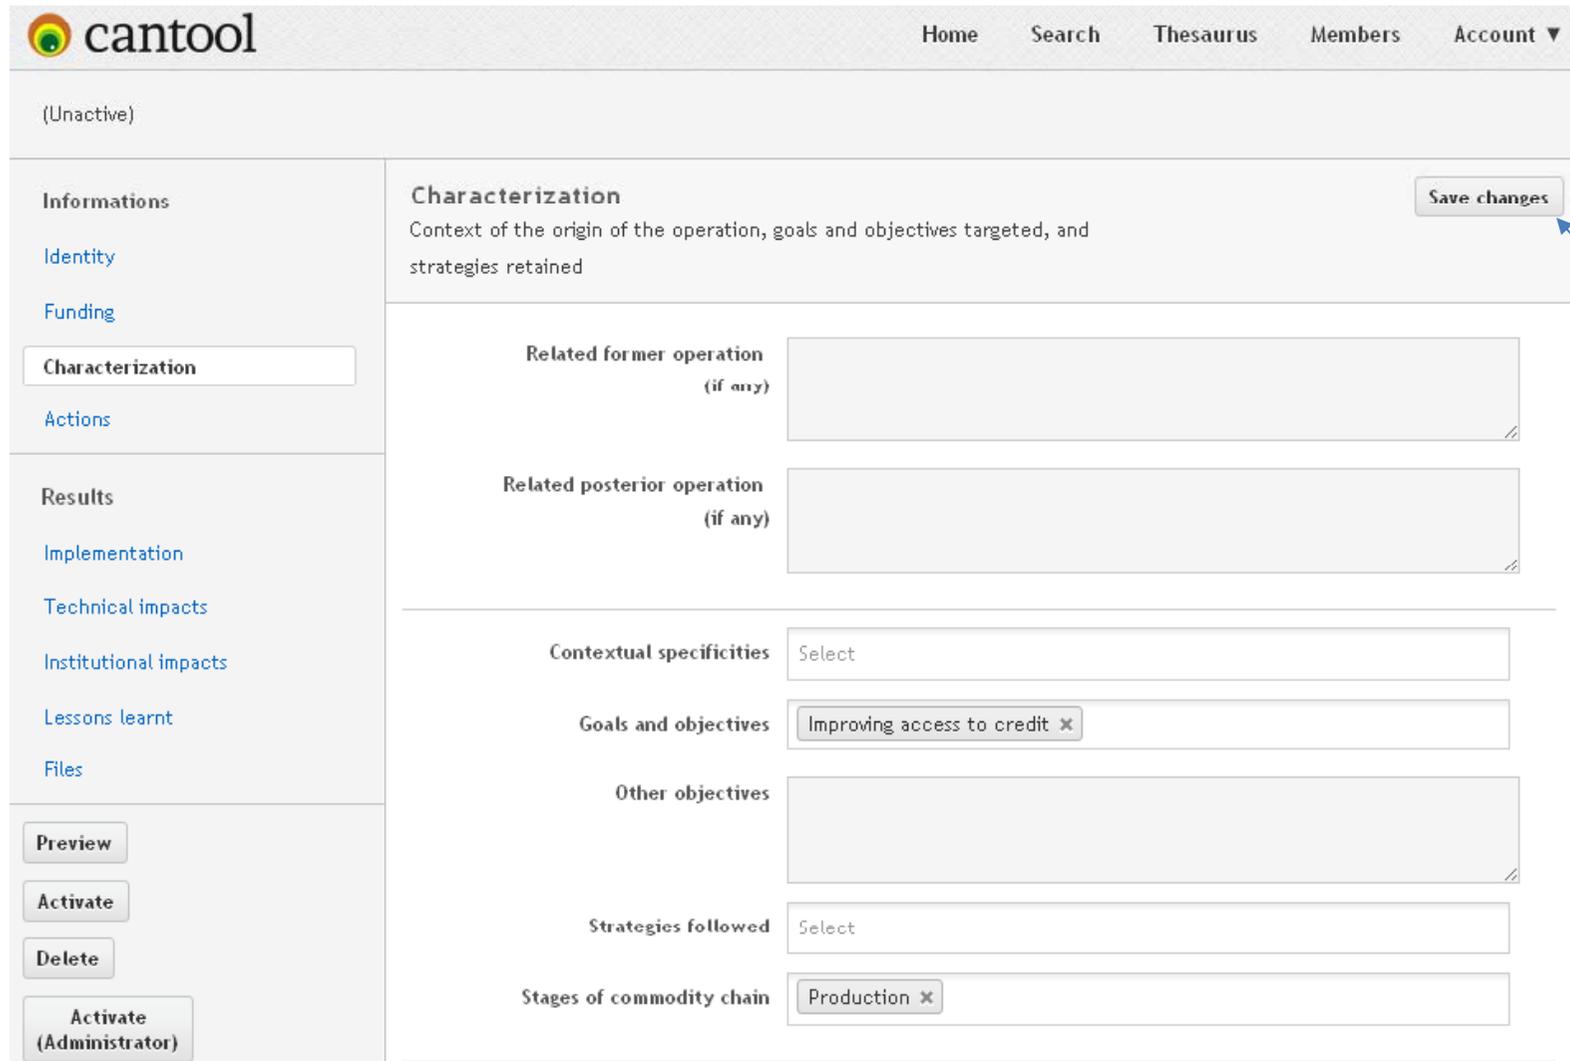

At the bottom of the form, there is a note '* Required' and a button labeled 'Add the organization'.

Give the full name of the organisation followed by its acronym, if any, in parentheses.

A few fields must not remain blank. The name in French can be understood as in national language (that could be portuguese)

Characterizing an operation

Many fields are available, answers for most are to be selected. Elaborate as much as possible when text can be added freely, including inserting translation

The screenshot shows the 'cantool' web application interface. The top navigation bar includes 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The user is logged in as '(Inactive)'. The left sidebar contains a menu with 'Informations' (Identity, Funding, **Characterization**, Actions), 'Results' (Implementation, Technical impacts, Institutional impacts, Lessons learnt, Files), and a set of action buttons: 'Preview', 'Activate', 'Delete', and 'Activate (Administrator)'. The main content area is titled 'Characterization' and contains the following fields:

- Related former operation (if any)**: A large text input field.
- Related posterior operation (if any)**: A large text input field.
- Contextual specificities**: A dropdown menu with 'Select' as the current value.
- Goals and objectives**: A dropdown menu with 'Improving access to credit' selected.
- Other objectives**: A large text input field.
- Strategies followed**: A dropdown menu with 'Select' as the current value.
- Stages of commodity chain**: A dropdown menu with 'Production' selected.

A 'Save changes' button is located in the top right corner of the form area. A blue arrow points from the text 'Do it!!!' to this button.

Do it!!!

Add actions and characterize them using thesaurus

Actions implemented in an operation can only be characterized towards one thesaurus

The screenshot displays the 'cantool' web interface. The top navigation bar includes 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The user is logged in as '(Inactive)'. The left sidebar contains a menu with 'Informations' (Identity, Funding, Characterization, **Actions**), 'Results' (Implementation, Technical impacts, Institutional impacts, Lessons learnt, Files), and action buttons: 'Preview', 'Activate', 'Delete', and 'Activate (Administrator)'. The main content area is titled 'Actions of the operation' and explains that actions can be specified and characterized using thesauruses. Below this, the 'Thesaurus associated to actions' section shows a dropdown menu set to 'AFO/MDnet' and an 'Associate to the thesaurus' button. The 'Actions characterization' section lists 'action 1' with a 'Delete' link. At the bottom, there is a 'Create a new action' button.

Action description and characterization

You get here because you clicked on "create a new action"

The screenshot shows the 'cantool' web interface. The top navigation bar includes 'Home', 'Search', 'Thesaurus', 'Members', and 'Account'. The user is logged in as '(Inactive)'. The left sidebar contains a menu with 'Informations' (Identity, Funding, Characterization, Actions), 'Results' (Implementation, Technical impacts, Institutional impacts, Lessons learnt, Files), and buttons for 'Preview', 'Activate', 'Delete', and 'Activate (Administrator)'. The main content area is titled 'Characteristics of the action' and contains a 'Save the characteristics' button, a 'Name' field with the value 'action', and a 'Details' field. Below this is a section for 'AFOMDnet' with a 'Save the characterization' button and a description: 'Thesaurus categorizing actions to help alleviate constraints impeding the development of Food crops and diversification. Administrated by Fok Michel'. At the bottom, there is a section for 'Abiotic production factor' with three 'Select criteria' dropdown menus for 'Climatic constraint', 'Edaphic constraint', and 'Exploitation constraint of natural resources'.

Name the action and describe it as much as possible, then **save**

Then you can start characterizing by the thesaurus you have selected but you can also do it after having creating all actions

You can upload as many files as you want about the operation; each file must be less than 8 Mo

Uploaded files can be downloaded to know more about the operation

The screenshot shows the 'cantool' web interface. At the top, there is a navigation bar with links for Home, Search, Thesaurus, Members, and Account. Below the navigation bar, the user's status is shown as '(Inactive)'. The main content area is divided into two columns. The left column contains a sidebar with various menu items: Informations, Identity, Funding, Characterization, Actions, Results, Implementation, Technical impacts, Institutional impacts, and Lessons learnt. At the bottom of the sidebar, there are buttons for Files, Preview, Activate, Delete, and De-activate (Administrator). The right column is titled 'Files' and contains the 'Add a file' section. This section includes a file selection button labeled 'Choisissez un fichier' with the text 'Aucun fichier choisi' and 'Maximum size allowed: 8 Mo.' below it. There is also an 'Add the file' button.

Please interact

You can contact us to make suggestion, to ask for help in case of trouble with your account, to report about an operation or on a member, to indicate your desire of creating a new thesaurus, or any other issue.

How to do to get here ?
Several possibilities. One is from the home page. Click on "about" leading you to a page where the button "contact us is available

The screenshot shows the 'cantool' website interface. At the top, there is a navigation bar with links for 'Home', 'Search', 'Thesaurus', 'Members', and 'Log in'. Below this, the 'AFOMDnet network' header is visible. On the left side, a sidebar contains links for 'Help', 'About', 'Contact us' (highlighted with a white box), and 'Legal informations'. The main content area is titled 'Contact us' and includes the text: 'You want to give your opinion and signal abusive use of the tool? Feel free to contact us!'. The form contains the following fields: 'Your name' (text input), 'Your email address' (text input), 'Topic' (dropdown menu with 'Suggestion' selected), 'Message' (text area), and 'Security code' (input field with a CAPTCHA image). The CAPTCHA image displays the text '10e2112' and 'Mür,'. To the right of the CAPTCHA is the reCAPTCHA logo and the text 'stop spam. read books.'. Below the form, a note states 'All fields are required' and a 'Send' button is located at the bottom.
